

“Foam Sweet Foam” since 1963

Dear Customers and Business Partners,

At the present time, the world is very preoccupied by a multitude of concerns. We are all worried about the health and well-being of our families, friends, and employees. At the same time, we fret about possible effects the current situation may have on our company as well as that of our business partners. It isn't easy to remain cool and collected in the face of such an unprecedented situation.

However, we have decided to maintain our operations as usual in order to ensure the same level of support for our customers that they are accustomed to.

Rest assured, we have implemented precautionary measures - such as stricter hygiene rules and regulations. This includes mandatory wearing of gloves and masks, washing of hands every 30 minutes, as well as limiting close physical contact. We are taking these provisions for the protection of our employees and our customers. We continue to place a special emphasis on ensuring the availability of contact persons and maintaining our normal delivery capacity.

You can still reach our customer service, sales department and technical department via telephone or e-mail. We will continue to receive and handle all communications and our staff will gladly be at your disposal to answer your questions. Due to government-imposed travel restrictions, we are forced to temporarily suspend travel for our sales representatives at this time.

We look forward to serving as we always have, since 1963. Stay strong, stay healthy and we will get through this together.

Sincerely,

Domfoam
